

I am writing to ask you to make the federal Do Not Call list stronger. When a consumers terminates their relationship with a company that company should obey the Do Not Call list within 30 days. I understand that you are considering a challenge to this law. I urge you to increase the strength of the Do Not Call list.

Today when I am unhappy with a company I terminate my relationship with them. If you allow them to telemarket to me, then you force me to continue this relationship. Let me be clear: If my phone number is on the Do Not Call list, then I DO NOT WANT TO BE CALLED.

Please, get these parasites off our phone lines.

Regards,
Jim
